my admission guide it and educational consultancy with website https://myadmissionguide.in/ and now this website is suspended by google Unacceptable Business Practices so what changes you think should made on this website to re verify this

For an education consultancy like **myadmissionguide.in**, a Google suspension under **"Unacceptable Business Practices"** almost always means **Google does not fully trust the business transparency shown on the website, ads, or business identity** — especially in admission-related services, because this category is high-risk for misleading claims. Google explicitly flags sites that hide identity, imply false affiliations, or make unverifiable promises. Google Help +1

🔴 Most likely reasons your website triggered suspension

From what Google checks for this policy, your current site likely has one or more of these issues:

- No clearly visible **legal company identity**
- Missing **full office address**
- Weak **About Us credibility**
- No proof of business registration / GST / company entity
- Claims like **"Guaranteed Admission", "Direct Admission", "100% Admission"**
- Using college names in a way that looks like official affiliation
- No disclaimer that you are **independent admission guidance service**
- Missing refund / cancellation / privacy / terms pages
- Lead forms asking user details without strong trust signals
- Contact number without company verification
- Too many colleges listed without partnership disclosure

Google treats this as possible misrepresentation. Google Help +1

✅ Mandatory website changes before appeal

1️⃣ Put legal identity everywhere (very important)

Footer + Contact page must show:

- Registered business name
- GST number (if available)
- Full address
- Working phone number
- Official email on domain

Example:

```
My Admission Guide
Operated by: [Legal Company Name]
Address: Full Office Address
GSTIN: XXXXX
Email: info@myadmissionguide.in
Phone: XXXXX
```

If you have company registration under another entity, show:

```
A unit of [Company Name]
```

This is one of the strongest trust signals Google checks. StubGroup

---

2️⃣ Create a strong About Us page

Your About Us page should clearly explain:

- Who owns the consultancy
- Since when operating
- What exact service you provide
- Whether you are independent counselor or authorized representative

Add:

```
We provide admission guidance and counseling support for students.
We are not an official representative of any university unless
specifically mentioned.
Admission decisions are made solely by respective colleges/universities.
```

This disclaimer is critical.

3️⃣ Remove dangerous words immediately 🚫

Avoid:

- Guaranteed Admission
- Confirm Admission
- Direct Admission in Top Colleges
- Assured Seat
- Lowest Fees Guaranteed

Instead use:

✅ Admission Guidance
✅ Counseling Support
✅ Application Assistance
✅ College Selection Help

Google flags unrealistic claims as unreliable claims. Google Help

---

4️⃣ Add policy pages (mandatory)

You need all four:

- Privacy Policy
- Terms & Conditions
- Refund Policy
- Disclaimer

Footer must link all pages.

Without these, Google often rejects re-verification.

5️⃣ Add clear disclaimer on every college page

Very important because educational consultancy often looks like official college site.

Use:

```
Disclaimer: My Admission Guide is an independent education consultancy
platform and is not the official website of any college/university unless
explicitly stated.
```

This should appear on:

- College pages
- Lead forms
- Contact page

Google specifically checks false affiliation. Google Help +1

6️⃣ Improve trust signals on homepage

Add:

✅ Real office images
✅ Team photos
✅ Founder details
✅ Student testimonials with real names
✅ Google Maps embed
✅ Office hours

This helps Google identify real business.

7️⃣ Remove copied college logos if unauthorized

If using college logos heavily, Google may suspect impersonation.

Better:

- Use text names
- Use official source attribution
- Avoid official-looking headers

8️⃣ Fix lead forms

Your form must clearly state:

```
By submitting this form, you agree to be contacted by My Admission Guide
counseling team.
```

No hidden lead collection.

9️⃣ Domain email required

Avoid Gmail for main trust.

Use:

✅ admissions@myadmissionguide.in ↗

instead of Gmail/Yahoo.

🔟 Add business proof before appeal

Prepare:

- GST certificate
- Registration certificate
- PAN business proof
- Office utility bill
- Google Business Profile link

✅ Best appeal strategy after fixing

In appeal write:

```
We reviewed and corrected all transparency issues on our website.

We have added:
- Legal business identity
- Address and contact details
- Policy pages
- Service disclaimer
- Non-affiliation statement
```

```
- Removed misleading admission claims

We provide only educational counseling and admission guidance.
We do not claim official affiliation with institutions unless authorized.

Kindly review our account again.
```

🔥 Biggest issue in education consultancy websites specifically

Google usually suspends when site looks like:

> *"Official college admission partner"*

even if unintentionally.

That is the first thing to eliminate.

✅ I strongly recommend these extra pages too

Create:

- Why Choose Us
- Our Process
- Verification Documents
- FAQ

✅ If you want, next I can do a live audit of myadmissionguide.in page-by-page and tell you:

🔍 exact lines causing suspension

🔍 exact words to remove

🔍 exact footer/header redesign needed

🔍 exact Google-safe homepage structure

That will be much more practical for reactivation.

exact lines causing suspension

I checked the homepage content of **myadmissionguide.in**, and there are several **exact lines that can directly trigger Google's "Unacceptable Business Practices" policy** because they create **trust-risk, unverifiable claims, or admission manipulation signals**. Below is the practical audit. 🔍

🚨 Exact lines most likely causing suspension

1️⃣ High-risk unverifiable claim

Current line:

> *"Trusted by 2000+ Students"*
> *"99.9% Satisfaction"*
> *"10+ Years Experience"*
> *"Over 2,000+ Admissions Done"*

These appear on homepage lines 40–46 and 122–128. myadmissiongui...

❌ Why Google flags this

Because these are **quantitative claims without proof**.

Google asks:

- Where is proof?
- Where are verified reviews?
- Where is company registration history?

✅ Replace with:

```
Guiding students for higher education admissions across multiple cities
in India.
```

If keeping numbers:

```
Assisted students across engineering and professional admissions.
```

Only use numbers if backed by evidence.

2️⃣ Dangerous admission promise wording

Current line:

> *"Get expert counseling and secure your seat at top engineering colleges across India."*

Line 141–144 myadmissiongui...

❌ Problem

"secure your seat" sounds like admission guarantee.

Google strongly flags guarantee-style education promises.

✅ Replace with:

```
Get expert counseling and application guidance for engineering admissions
across India.
```

3️⃣ Management quota wording (major suspension trigger)

Current line:

> *"Do you provide assistance for securing management quota seats in universities?"*
> *"Yes, our consultancy offers guidance and support for students seeking admission through management quota seats..."*

Lines 138–140 myadmissiongui...

❌ This is one of the biggest risk lines

Google often interprets:

- management quota
- direct seat

- seat securing

as **admission manipulation / unauthorized access**

✅ Replace with:

```
We provide information regarding available admission pathways as per
institution guidelines.
```

Avoid:

❌ securing quota seats
❌ guaranteed quota admission

4️⃣ "Top consulting firm" claim without proof

Current line:

> *"National Top Consulting Firms"*

Line 57 myadmissiongui...

❌ Problem

"Top" requires third-party proof.

Google checks whether:

- ranking exists
- award exists
- certification exists

✅ Replace with:

```
Experienced educational counseling services
```

5️⃣ Strong emotional testimonial claims may look fabricated

Examples:

> *"They treated me like family. If I could give 100 stars"*
> *"secured admission to my dream university"*
> *"gained admission to multiple top-tier institutions"*

Lines 89–117 myadmissiongui...

❌ Problem

If testimonials are not verifiable:

Google treats them as fabricated trust signals.

✅ Fix

Add:

- full student name
- year
- college admitted
- optional LinkedIn/social proof

or reduce exaggeration.

6️⃣ Gmail instead of domain email

Current line:

> *myadmissionguide.in@gmail.com* ↗

Line 2 myadmissiongui...

❌ Major trust issue

Google prefers domain identity.

✅ Replace with:

```
info@myadmissionguide.in
admissions@myadmissionguide.in
```

7️⃣ Missing legal ownership in footer (critical)

Current footer only shows:

> *© 2026 MyAdmissionGuide. All Rights Reserved.*

Line 164 myadmissiongui...

❌ Missing mandatory trust data

Need:

```
Operated by: Legal Company Name
GSTIN:
PAN:
Registered Office:
```

8️⃣ Missing non-affiliation disclaimer (critical for college consultancy)

You list colleges like:

- RV College of Engineering
- BMS College of Engineering
- Ramaiah Institute

Lines 8–13 myadmissiongui...

❌ Google may think you impersonate official college channel

✅ Add on every page:

```
Disclaimer: My Admission Guide is an independent education consultancy
and is not the official admission office of any college unless explicitly
stated.
```

9️⃣ "Complete Admission Guidance to Top Universities of India"

Line 34 myadmissiongui...

⚠️ Moderate risk

Because "Top Universities" + broad admission claim without legal clarity creates policy suspicion.

✅ Better:

```
Independent admission counseling for engineering and professional
courses.
```

🔟 Missing visible legal pages (very serious)

Google will re-check whether these pages exist and are complete:

✅ Privacy Policy
✅ Refund Policy
✅ Terms & Conditions
✅ Disclaimer
✅ Cancellation Policy

If any are weak, suspension stays.

🚨 Highest-risk words anywhere on site (remove globally)

Search whole website and remove:

❌ Direct Admission
❌ Guaranteed Admission
❌ Confirm Admission
❌ Secure Seat
❌ Management Quota Admission Guaranteed
❌ Lowest Donation

These are common suspension triggers.

✅ Strong footer structure required now

Use exactly:

```
My Admission Guide
Independent Educational Consultancy

Operated by: [Legal Entity Name]
Registered Office: Full Address
GSTIN: XXXXX
Phone: XXXXX
Email: info@myadmissionguide.in

Disclaimer: We are an independent counseling platform and not affiliated
with any college/university unless officially stated.
```

✅ Before appeal, Google wants 3 things clearly visible

Transparency

Verifiable identity

No misleading admission promise

🔥 Important: your college pages and "direct admission" pages are likely even more dangerous than homepage

Those pages usually trigger suspension faster than homepage.

If you want, next I can audit:

Top 10 exact pages on your site that are highest suspension risk

including:

- RVCE page
- BMSCE page
- Ramaiah page
- Direct admission pages

That will show **exact sentences to delete immediately** before re-verification.

audit these pages

I audited what is currently visible and, based on Google Ads policy patterns for education consultancies, your **highest-risk pages are not only the homepage but any page containing college-brand targeting + quota/direct-admission language**. Since some internal URLs are blocked from direct fetch, I'm mapping the exact suspension-risk patterns from your live visible content and the page types you are clearly using. 🔍⚠️

🚨 Page-by-page audit: highest suspension-risk sections

1️⃣ Homepage (highest current trigger)

Homepage source reviewed ↗

Exact risky lines already visible

- **"Complete Admission Guidance to Top Universities of India"**
- **"Trusted by 2000+ Students"**
- **"99.9% Satisfaction"**
- **"National Top Consulting Firms"**
- **"Over 2,000+ Admissions Done"**
- **"Do you provide assistance for securing management quota seats in universities?"**
- **"Get expert counseling and secure your seat at top engineering colleges across India."**

Supported in homepage source lines 34, 40–46, 57–68, 138–143. myadmissionqui...

❌ Why this triggers Google

Google sees:

- unverifiable business claims
- implied guaranteed outcomes
- quota-linked admission language

- trust claims without proof

✅ Immediate rewrite

Replace all with:

```
Independent admission counseling for engineering and professional
courses.
We guide students through eligibility, applications, counseling and
institution selection.
```

2️⃣ RV College page (very likely major suspension trigger)

Because you are targeting:

RV College of Engineering

Typical risky wording Google flags on such pages:

❌ Remove if present anywhere

- Direct Admission in RV College
- RVCE Management Quota Admission
- Secure Seat in RVCE
- Low Donation Admission
- Guaranteed Admission in RVCE

Why dangerous

Google interprets this as:

> *false affiliation with college brand*
> *admission brokering*

✅ Safe version

Use:

```
Admission guidance for RV College of Engineering based on current
eligibility, entrance pathways and counseling process.
```

Mandatory disclaimer on top of page

```
This page is for independent admission information only. We are not the
official admission office of RV College of Engineering.
```

3️⃣ BMS page (same high-risk issue)

For BMS College of Engineering

High-risk phrases to delete

- BMS direct admission
- Confirm BMS seat
- Admission through management quota in BMS

Replace with

```
Admission information for BMS College of Engineering based on merit,
counseling and institution guidelines.
```

4️⃣ Ramaiah page (extremely sensitive because brand authority is strong)

For Ramaiah Institute of Technology

Dangerous if present

- Direct admission in Ramaiah
- Seat booking
- Instant admission support

Safe rewrite

```
Guidance regarding admission routes available under institutional
```

```
admission policies.
```

5️⃣ Direct admission page (highest probability suspension page)

If you have page like:

direct-admission-in-engineering-colleges-in-bangalore

This alone often triggers Google.

❌ Dangerous title itself

"Direct Admission" is high-risk.

Safe title

```
Admission Guidance for Engineering Colleges in Bangalore
```

Dangerous body lines to remove

- direct seat
- guaranteed college allotment
- secure confirmed seat

6️⃣ Management quota page (strongest suspension trigger)

If page title contains:

management quota admission

Google frequently suspends instantly.

Safer title

```
Information on Institutional Admission Categories in Engineering Colleges
```

Replace all wording:

❌ securing management quota seat

❌ guaranteed quota admission

with:

```
We provide general information regarding admission categories as defined
by institutions.
```

🚨 Critical footer issue across all pages

Current footer only shows copyright.

Visible homepage footer lines 162–164 confirm missing legal identity. myadmissiongui...

Add on every page:

```
Operated by: [Legal Company Name]
Registered Office: Full Address
GSTIN:
Email: info@myadmissionguide.in
```

🚨 Contact identity issue

Current email:

myadmissionguide.in@gmail.com ↗ (homepage line 2) myadmissiongui...

Replace immediately

```
info@myadmissionguide.in
```

Domain email strongly improves re-verification trust.

🚨 Testimonial section risk

Current testimonials contain exaggerated admission outcomes:

- dream university
- secured admission
- top-tier institutions

Visible lines 98–117. myadmissiongui...

Fix

Add:

- full student identity
- admission year
- real college
- reduce exaggeration

✅ Best structure Google accepts now

Every college page should follow:

Header:

```
Admission Information for [College Name]
```

Disclaimer:

```
Independent counseling page. Not official college website.
```

Body:

- eligibility
- entrance exam accepted
- fee range
- counseling process
- hostel info

Avoid:

- seat guarantee
- quota promise
- donation guidance

🚨 Most important: change page titles too

Bad title:

```
Direct Admission in RV College through Management Quota
```

Safe title:

```
RV College of Engineering Admission Process 2026
```

✅ Before appeal, Google should see these 5 fixes live for 7–10 days

- legal company identity
- domain email
- disclaimer on every college page
- remove quota/direct admission language
- remove unverifiable claims

🚨 DEVELOPER MANDATORY CHANGES

Header/Footer must show:

✅ legal company name
✅ GST
✅ office address
✅ domain email

Forms must add:

```
By submitting this form, you agree to be contacted by My Admission Guide
for admission guidance purposes.
```

Remove all:

❌ direct-admission URLs
❌ management quota wording
❌ seat booking text

🔥 VERY IMPORTANT BEFORE GOOGLE APPEAL

Keep all changes live for **7–10 days** before appeal submission. ⏳

If you want, next I can also prepare **Privacy Policy + Terms + Refund Policy + Disclaimer pages exactly in Google-approved format** — these are often the final missing pieces for suspension recovery.
